Racing Prodigy™, iRacing, Williams Esports and its Williams Gaming Club, and additional Racing Prodigy partners are excited to collaborate on a PRL™ iRacing competition featuring the Global Mazda MX-5 Cup race car, culminating with the top 48 series point leaders qualifying to compete in the Prodigy Racing League™-hosted Finals on Sunday, December 15. This competition is limited to iRacing members who have a [Racing Prodigy Membership \(RPM\)](#) with an active PRL iRacing Game Pass or PRL Combo Game Pass.

This document is a guide for those wishing to compete in this Prodigy Racing League esports competition and should be read in addition to the other Racing Prodigy, iRacing, and Williams Gaming Club rules applicable to all members.

This guide, together with [iRacing's Official Sporting Code](#), [iRacing's Terms of Use and End User License Agreement](#), [iRacing.com Motorsport Simulations, LLC Privacy Policy](#), [iRacing's Online Competitions and Contests Official Contest Rules](#), [Racing Prodigy's Sporting Code](#), and [Racing Prodigy's Privacy Policy](#) form the body of rules and procedures applicable to the iRacing and Racing Prodigy members who compete in this competition (collectively, the "Rules").

Each member who intends to compete in this competition is required to read, understand, and agree to all Rules prior to participation. The Rules are a contract between each iRacing member, iRacing.com Motorsport Simulations, LLC, Racing Prodigy member, and Racing Prodigy, Inc. When registering for the competition, iRacing.com and Racing Prodigy members may accept the Rules by accepting the click-through terms on iRacing.com and RacingProdigy.com. All information in this document is subject to change.

Prizes are funded and provided by Racing Prodigy, Inc. iRacing and Williams Esports are licensed partners of Racing Prodigy, Inc. and are only providing the platform on which this online competition is taking place (iRacing) and registration and event management (Williams Esports).

RACING PRODIGY OVERVIEW

Racing Prodigy has opened motorsports to all.

Historically, the cost of pursuing a career in motorsports has been so daunting that 99%+ of people never realize the opportunity or even dare dream of becoming a professional racer.

How did we change this?

It starts with sim racing. Millions compete, and we know, firsthand, sim racing skills transfer to the real race cars on real racetracks. This is why we partnered with game publishers, offering esports competitions across many sim racing games, enabling us to identify prodigies that may otherwise go undiscovered. These sim racers, many of whom will prove they can be the world's best in real-life (IRL) racers, will have the opportunity to earn one of many Prodigy Passes™ – the golden tickets of motorsports - to then compete in real race cars at Prodigy Week™.

[Prodigy Week, Season 1, Part 2](#), was held at Atlanta Motorsports Park, one hour drive north of Atlanta, Georgia, May 13-15 – 20 Prodigy Pass winners competed in Radical SR1s, in the fitness center, skid pad, and autocross course with the major focus on track in the Radical SR1.

Following Prodigy Week, the inaugural Prodigy Draft™ saw 24 drivers selected by six Prodigy Racing Teams [live from the Williams Racing Fan Zone in downtown London](#). These 24 drivers receive paid pro contracts to race in the Prodigy Three Championship, the first of three tiers of real-world racing in the PRL, starting November 16-17 at NOLA Motorsports Park.

These paid P3 drivers will fill the grid and compete for significant prize money in the first racing series made up of those who earned their way in—rather than bought their way in. (One cannot buy a drive in this series.) For those who excel on track in our P3 real-world series, there is the opportunity to move up to the second tier of real-world racing in 2025, also operated and controlled by Racing Prodigy. The goal is to establish three tiers of real racing, completing our e2Real™ league. For those with the skill, you should be able to build a career in motorsports with us, without the need to hunt for your own sponsors to stay in the sport.

This is why we have created the Prodigy Racing League - the world's first e2Real sports league. This league is the first in motorsports with a real-world ladder, open to all, regardless of bank account size or connections.

To continue to grow a new motorsport, we the e2Real league need support from the sim racing community via esports participation and social following and from partners who desire to transform motorsport. For 2024, more companies are joining us in our work to open motorsports to those with the skill. Thank you to [Asetek](#), [SimSports®](#), [MPI](#), [PitFit Training](#), [SIM-LAB](#), [GRID Engineering](#), and [Racers Physio](#) who helped kick-off the PRL. We added additional partners in PRL Season 1 Part 2, [Mazda](#), [SuckerPunch](#), [Women in Motorsports North America](#), [Toyo Tires](#), and [Advanced SimRacing](#) to our family and recently added [Williams Esports](#), [Thibaut Courtois](#), [G2 Esports](#), and [Guild Esports](#) as Prodigy Racing Teams. We have launched an [open coaching marketplace](#) on RacingProdigy.com to generate more support for the racers and revenue to fund the league. We are not handpicking sim racers to offer their coaching services; we are creating an open marketplace and ecosystem that allows those with the skill and effort to participate and flourish. With these efforts and more, we work to greatly expand the sport we love.

The only way we accomplish this is together.

Race Points – Regular Season

For drivers in the iRacing **Fanatec Mazda MX-5 Cup** series, Championship Points will be used. Races are valued by the Strength of Field (SOF), which is based on the iRatings of the drivers in the field for the event. The higher the SOF, the more Championship Points are available for each finishing position. The larger the field, the smaller the difference in Championship Points awarded for each finishing position. A driver's Race Week Championship Points are calculated by averaging together the top 25% (rounded up to the next whole number) of a driver's race performances (based on Championship Points scored). A driver's Season Championship Points are calculated by totaling the highest 9 Race Week Championship Point values.

For drivers in the iRacing **Williams Gaming Club (WGC) PRL Mazda MX-5 Cup** Time Attacks, drivers will receive points each week based on their leaderboard ranking. The top driver each week will receive 100 points, second place 99, and so on. The 12 drivers with the most points at the end of the event (factoring in 3 drop weeks) will advance to the Finals.

Race Car – Regular Season and Postseason Finals

Both stages of the competition will take place using one “baseline” fixed car setup for the “Global Mazda MX-5 Cup” race car (included with iRacing membership). For the Finals, fast repair will be disabled.

Racing Conditions – Regular Season

- Drivers WILL gain/lose iRating and Safety Rating when participating in the iRacing Fanatec Mazda MX-5 Cup series and WILL NOT gain/lose iRating and Safety Rating when participating in the iRacing Williams Gaming Club PRL Mazda MX-5 Cup Time Attacks.
- Dynamic conditions will be turned on, with the same conditions used for every split for the same race.
- Tire wear will be set to ON.
- Tire temperature will not be disabled, which means the tires will heat up throughout the session.
- Fuel consumption will be set to ON.

Postseason Finals, PRL-Hosted Races (Stage 2 of 2)

The Finals, managed and run by the Prodigy Racing League and its partners, are Sunday, December 15, 2024.

The racetrack will be announced at least one week prior to the event. The track will be included with an iRacing membership and will have been one of the thirteen racetracks shown above during the series.

The top 36 points finishers with a Racing Prodigy Membership (RPM) in the iRacing Fanatec Global Mazda MX-5 Cup series will advance to the Finals. The top 12 points finishers with a Racing Prodigy Membership (RPM) in the Williams Gaming Club-hosted iRacing Mazda MX-5 Cup Time Attacks will advance to the same Finals hosted.

Advancement Policy: If a driver qualifies for the Finals in both series, they will advance from the series in which they have the higher rank. The next highest-ranked driver from the series where the spot was vacated will be promoted to ensure a full field. This process will be repeated for any additional drivers who qualify in both series.

These top 48 highest points finishers enter the Finals starting at 1:00 PM ET / 6:00 PM GMT.

- Group 1 - Single Race; 24 racers; **WINNER EARNS A PRODIGY PASS.**

- Group 2 - Single Race; 24 racers; **WINNER EARNS A PRODIGY PASS.**

Finals Grouping: Driver grouping will be staggered for maximum integration between the two qualifying paths.
Group 1 = Top points finisher from Fanatec MX-5 Cup, #2 WGC MX-5 Time Attack, #3 Fanatec MX-5 Cup, etc.
Group 2 = Top points finisher from WGC MX-5 Time Attack, #2 Fanatec MX-5 Cup, #3 WGC MX-5 Cup, etc.

PENALTY SYSTEM

Penalties on and off-track

Penalties may be assessed post-race. Racers who believe a penalty should be assessed have the right to protest; race stewards will not proactively assess on-track issues without a driver submitting an official protest in a timely manner (see Protests Section below).

Our penalty system is as follows:

Warning:	Given for minor incidents, such as a small collision or going off track without gaining an advantage. No penalty will be issued, but drivers will be notified that their behavior is being monitored.
5-second penalty:	Given for more serious incidents, such as causing a collision or exceeding track limits to gain an advantage. A 5-second penalty will be added to the offending driver's race time.
10-second penalty:	Given for significant incidents, such as causing a multi-car collision or repeatedly exceeding track limits to gain an advantage. A 10-second penalty will be added to the offending driver's race time.
20-second penalty:	Given for severe incidents, such as deliberately causing a collision or ignoring multiple warnings for unsportsmanlike behavior. A 20-second penalty will be added to the offending driver's race time.
Disqualification:	Given for the most serious incidents, such as cheating or exploiting the game, or repeatedly ignoring warnings and penalties. The driver will be removed from the race and will not be eligible to receive any prizes.

In addition:

- *On or off-track behavior:* It is important that the drivers keep their wits about them. We do not support unsportsmanlike conduct; anyone who does anything that we deem unjust will be penalized if protested.
- *In-game penalties:* Penalties given to a driver via the game should be respected but are able to be protested just like any other penalty.

PROTESTS

Protest Form

If a driver feels as though he or she has been wrongfully penalized, or another driver should be penalized, they must fill out the Racing Prodigy official protest form, found on the official PRL competition Discord server, within one (1) hour after the end of the race. You are not allowed to make protests on another's behalf or against someone for an incident that did not involve you.

The driver being protested may be contacted by the stewards (via Discord direct message) if their point of view is deemed necessary. The protested driver then has 1 hour to submit his/her own evidence. A ruling can be made by the Stewards without needing the protested driver's point of view.

CHEATING & EXPLOITS

Cheating

Cheating will not be condoned, no matter the severity, under any circumstance. Any driver who is caught cheating will be disqualified immediately from the competition and will be indefinitely banned or suspended from all Racing Prodigy activities and his or her Racing Prodigy membership revoked.

Examples of cheating include, but are not limited to, add-ons outside of the game that provide an advantage, managing to clear a penalty before the start/finish line, and any other advantage that could be gained outside of the simulator.

Exploits

Exploiting the game, just like cheating, is not tolerated and any driver caught doing so will be disqualified from the competition and will be indefinitely banned or suspended from all Racing Prodigy activities with their Racing Prodigy membership revoked.

An example of exploits includes purposely removing the braking boards/markers on track during a race or clearing penalties on previous laps to gain a speed advantage the next lap.

OTHER

Racing Prodigy accepts no responsibility for any damage, wear or otherwise caused to Racing Stations by taking part in the Competition shall have no course of action in such circumstances.

Nothing in the Rules shall limit or exclude Racing Prodigy, Inc. from liability for death or personal injury caused by Racing Prodigy's negligence or any other liability which cannot be excluded under the laws applicable in the country which the Driver resides.

In the event of any discrepancy or inconsistency between the terms and conditions of these English Rules and disclosures or other statements contained in any Competition-related materials, including, but not limited to any other official Racing Prodigy versions (in other languages) of these Rules and/or point of sale, television, print or online advertising, the terms and conditions of these English Rules shall prevail, govern and control to the fullest extent permitted by applicable law.

Any attempt or suspected attempt to enter this Competition in a fashion not authorized by these rules shall be deemed to be tampering and is void.
